COBPBAR SYSTEM REPORTING STATUS

1.0 Introduction

The COBPBAR system was designed to capture HIV response activities that take place at the community level. This Community Based HIV Programme Activity Reporting (COBPBAR) sub-system that was developed in 2005, has undergone various updating over time to respond to the changing HIV response strategic landscape brought about by various HIV strategic plans. The most recent update was the process of integrating COBPBAR to the DHIS-2 which was informed by the Kenya AIDS Strategic Framework (KASF) and devolved governance in Kenya.

The process of integrating COBPBAR to DHIS is almost complete. It will mark a milestone where COBPBAR will now be available in DHIS platform making it more accessible to both the data generators and users. The integration process has and will not affect the data entry within the COBPBAR system. The data entry clerks have continued to receive reports and subsequently enter community related HIV data into the COBPBAR system. The integration process is expected to be completed by June 2016 after which the COBPBAR system and the resultant data will be migrated fully into DHIS platform.

2.0 Reporting Rate

Reporting by the Community Based Organizations through COBPBAR has been ongoing since the development and launch of this system. However, reporting has declined slightly due to the fact the key motivation for reporting by the Community Based Organizations was the funding opportunities that were available during the TOWA project. Some of the Counties have also re-assigned the CACC Coordinators other roles affecting the COBPBAR reporting rates in such Counties. Delay in releasing office operation funds to CACC coordinators has made it difficult for CACC Coordinators to carryout Monitoring and evaluation and mentoring of CSOs, resulting in reduced reporting rates.

The table 1&2 below provide the COBPBAR reporting rates for the last two years. The table show a slight decline in reporting rates per region due to factors that have been discussed earlier but it also indicates that reporting through the COBPBAR system has continued over the last two years.

Table 1: showing the number reports key into the COBPAP System in the Year 2014

Region	Q1	Rate (%)	Q2	Rate (%)	Q3	Rate (%)	Q4	Rate (%)	Target
Nairobi	293	49	283	47	272	45	270	45	600
Central	861	72	803	67	145	12	240	20	1,200
Coast	560	56	718	72	262	26	170	17	1,000
Eastern	636	53	502	42	440	37	307	26	1,200
North Eastern	153	38	220	55	190	48	137	34	400
Nyanza	1,249	83	1,304	87	1,128	75	1,176	78	1,500
North Rift	463	58	412	52	407	51	226	28	800
South Rift	667	67	644	64	636	64	498	50	1,000
Western	979	82	982	82	757	63	850	71	1,200
Total	5,861	66	5,868	66	4,237	48	3,874	44	8,900

Figure 1: showing the number reports key into the COBPAR System in the Year 2015

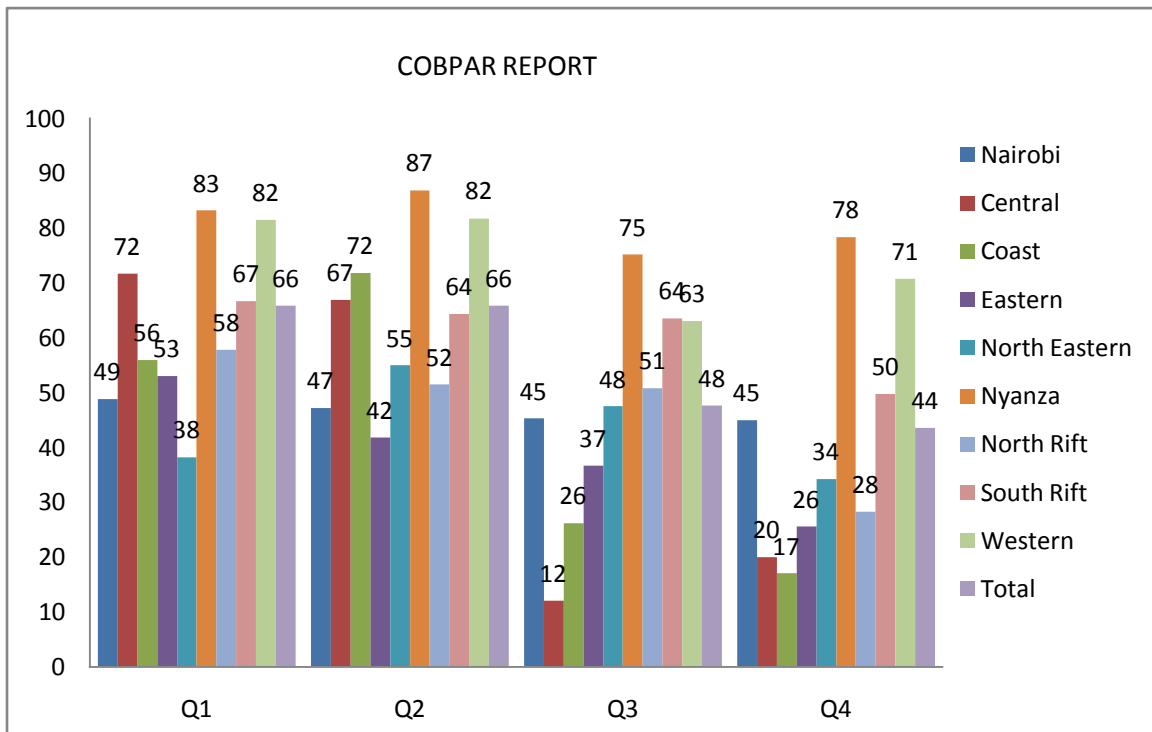

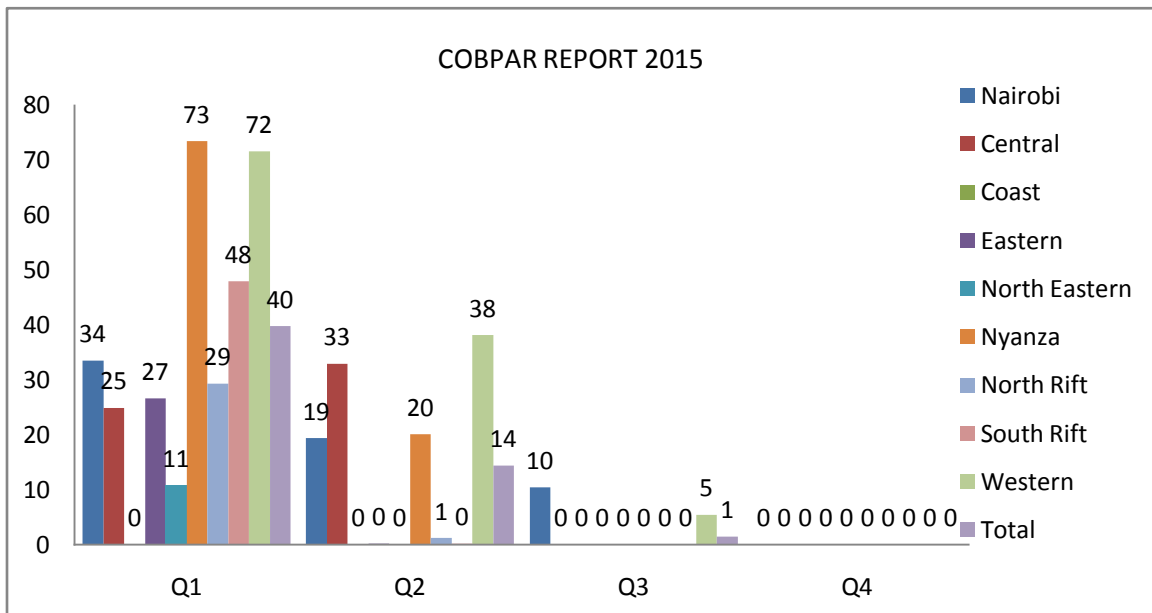

Table 2: showing the number reports key into the COBPAR System in the Year 2015

COBPAR REPORTS 2015									
Region	Q1	Rate (%)	Q2	Rate (%)	Q3	Rate (%)	Q4	Rate (%)	Target
Nairobi	201	34	116	19	62	10	-	-	600
Central	298	25	395	33	-	-	-	-	1,200
Coast	-	-	-	-	-	-	-	-	1,000
Eastern	319	27	2	0	-	-	-	-	1,200
North Eastern	43	11	-	-	-	-	-	-	400
Nyanza	1,102	73	300	20	-	-	-	-	1,500

North Rift	234	29	9	1	-	-	-	-	800
South Rift	479	48	1	0	-	-	-	-	1,000
Western	859	72	457	38	65	5	-	-	1,200
Total	3,535	40	1,280	14	127	1	-	-	8,900

- Quarter three is current quarter being reported and quarter 4 will be due by January 2016.

Figure 2: showing the number reports key into the COBPAP System in the Year 2015

- Quarter three is current quarter being reported and quarter 4 will be due by January 2016.

3.0 Conclusion

- Review of COBPAR reporting in last two years indicate that Community Based Organization are still reporting through COBPAR system.
- It is noted that reporting has marginally declined. This decline has been associated with TOWA closure, Inconsistent disbursement of office operation funds and re-assignment of tasks for CACC's in some Counties.
- NACC is in the process of transitioning the COBPAR system into the DHIS platform. However, the old COBPAR system is active and operational. All the Regions are expected to continue using the old COBPAR system until the time that they will be trained and to migrate to the DHIS platform.
- RHC to undertake COBPAR follow up to establish the reason for the decline in their respective regions.
- Orientate SCACC Coordinators which came on board after 2013 elections on COPBAR and HYPORS.
- Send out an official communication to RHCs and SCACCs on how to manage the transition including time frames.
