

Quality Policy

The National AIDS Control Council is a responsive authority in the multi-sectoral coordination of the Kenya HIV and AIDS response and is committed to:

- *Provision of visionary leadership to attain effective HIV prevention, care and treatment in Kenya;*
- *Seeking to understand and satisfy the needs and expectations of all NACC stakeholders;*
- *Promotion of innovative and sustainable financing for the HIV response;*
- *Provision of a robust monitoring and evaluation framework, and management information systems for the HIV response;*
- *Promotion of actions that increase HIV services and reduce stigma across different sectors;*
- *Strengthening of NACC institutional capacity and ensuring effective risk management;*
- *Establishment and review of quality objectives that are measurable and consistent with this quality policy;*
- *Continual improvement of the quality management system and compliance with the requirements of the ISO 9001:2015.*

A handwritten signature in blue ink, appearing to read "Dr. Nduku Kilonzo", is written over a horizontal line.

Dr. Nduku Kilonzo
