Objective	Intervention	Indicators
Increase the number of Personnel being trained that are cognizant to HIV control	Sector specific HIV and AIDS training or sensitization modules	# of people sensitized on HIV and AIDS interventions relevant to Environment Protection Water and Natural Resources sector training institutions
Increase HIV and AIDS knowledge	Sensitization on HIV and AIDS for clients	# of people reached with HIV prevention information # of people sensitized on reducing stigma and discrimination towards PLHIV
Contribute towards domestic financing for HIV response	Contribute percentage of infrastructure allocations towards the HIV funds	Percentage of project costs allocated to HIV component
		Actual amount allocated to the HIV component
Increase HIV and AIDS knowledge among the communities around the project sites	Integrate HIV messages in day to day routines (Message should be approved by NACC)	# of outreaches that included at least one HIV message targeting the community
		# of people reached with one to one HIV and AIDS prevention messages in project sites
Condom promotion	Condom distribution	# of condoms received for distribution
		# of condom distribution points established
		# of condom dispensers installed
		# of condoms distributed
		# of people trained on condom use and disposal
For institutions that have health facilities that offer services to the community		
Ensure that workers who contribute to the Environment Protection Water and Natural Resources sector are healthy	Provide HIV and STI Treatment services to surrounding communities	# of people In the surrounding communities provided with HIV/STI treatment services
	Provide Prevention services to surrounding communities e.g. VMMC, HTS, PMTCT , ART, Peer education, PrEP, PEP	# of people In the surrounding communities reached with HIV Prevention services
	Reduce new infections among adults by 75%	# of people counselled, tested received results of HIV test
		# of eligible HIV clients on ARVs
		# of pregnant women counseled and tested for HIV and received their results
# of children born of HIV+ mothers receiving ARV prophylaxis		

Note:

Sensitisation of clients and key stakeholders will be based on a Prescribed sensitization package on HIV Prevention that includes the following key areas: HIV Situation in Kenya; Basic Facts on HIV and AIDS; linkages between sexual and gender based violence and HIV; Adherence to HIV treatment and care; Linkages between HIV, TB and Human rights, Reduction of stigma and discrimination toward people living with HIV; Linkages between HIV, and NCDs and Demand creation for HIV prevention, care and support services. (the Guide to Prescribed sensitization package on HIV Prevention available at the NACC website)
