To obtain first hand information on the assignment and on the local conditions, consultants are encouraged to liaise with the Client regarding any information that they may require before submitting a proposal and to attend a pre-proposal conference where applicable. Consultants should contact the officials named in the Appendix “ITC” to arrange for any visit or to obtain additional information on the pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.
- 2.1.4 The Procuring entity will provide the inputs specified in the Appendix “ITC”, assist the firm in obtaining licenses and permits needed to carry out the services and make available relevant project data and reports.
- 2.1.5 Please note that (i) the costs of preparing the proposal and of negotiating the Contract, including any visit to the Client are not reimbursable as a direct cost of the assignment; and (ii) the Client is not bound to accept any of the proposals submitted.
- 2.1.6 The procuring entity’s employees, committee members, board members and their relative (spouse and children) are not eligible to participate.
- 2.1.7 The price to be charged for the tender document shall not exceed Kshs.1,000/=

2.2.2 At any time before the submission of proposals, the Client may for any reason, whether at his own initiative or in response to a clarification requested by an invited firm, amend the RFP. Any amendment shall be issued in writing through addenda. Addenda shall be sent by mail, cable, telex or facsimile to all invited consultants and will be binding on them. The Client may at his discretion extend the deadline for the submission of proposals.

The Client and firm will then work out final Terms of Reference, staffing and bar charts indicating activities, staff periods in the field and in the head office, staff-months, logistics and reporting. The agreed work plan and final Terms of Reference will then be incorporated in the “Description of Services” and form part of the Contract. Special attention will be paid to getting the most the firm can offer within the available budget and to clearly defining the inputs required from the Client to ensure satisfactory implementation of the assignment.
- 2.9.3 Unless there are exceptional reasons, the financial negotiations will not involve the remuneration rates for staff (no breakdown of fees).
- 2.9.4 Having selected the firm on the basis of, among other things, an evaluation of proposed key professional staff, the Client expects to negotiate a contract on the basis of the experts named in the proposal. Before contract negotiations, the Client will require assurances that the experts will be actually available. The Client will not consider substitutions during contract negotiations unless both parties agree that undue delay in the selection process makes such substitution unavoidable or that such changes are critical to meet the objectives of the assignment. If this is not the case and if it is established that key staff were offered in the proposal without confirming their availability, the firm may be disqualified.
- 2.9.5 The negotiations will conclude with a review of the draft form of the Contract. To complete negotiations the Client and the selected firm will initial the agreed Contract. CONCEPT NOTE

Terms of reference for Costing Reference Case for Estimating the Costs of HIV and AIDS Programmes within the 47 County AIDS Implementation Plans (CAIPs)

1. Background

This Concept Note outlines a project to develop a Standardized methodological guidance in form of a **'Reference Case'** to guide Assessment and Harmonization of HIV Programme Costs and a Guide Towards achievement of efficiency and effectiveness in HIV programming in Kenya. The field of economic evaluation of HIV and Health programmes in general is growing rapidly, driven by the need to scale up priority programs for attainment of national and global targets in an environment of major resource constraints and emerging challenges including COVID-19 and related comorbidities. In Kenya, with the reduction in external funding of key programmes on HIV and health and challenges posed by COVID-19, Domestic Resources Mobilization Initiatives have become a priority for long-term sustainable financing of programmes on HIV and Health. With development of the Kenya AIDS Strategic Framework (KASF II) 2020/21 to 2024/25 aligned to Universal Health Coverage (UHC) estimated to cost Kenya Shillings 647.7 Billion, there is an urgent need to provide accurate and sound costing data to guide planning and review of programmes at all levels.

Over the past decade, a number of key partners have supported numerous prospective and retrospective costing analysis aimed at estimating the unit cost of various HIV and health services in Kenya. The unit cost data generated has supported development of country specific resource needs estimates and have further informed previous Investment Cases for HIV and Health Programmes. However, the unit cost studies have largely not been well harmonized in terms of methodology and the data generated has not been captured into a central repository that can easily be accessed by users for decision making. This has resulted in inefficient deployment of resources and repetition of the cost analysis even when the data exists in one form or another. There is there need for a process and system that facilitates harmonized coordination of costing study approaches and methodologies, collating finding and building a repository that facilitates ease of access for planning and review of programmes on HIV and Health.

2. Developing the Reference Case for Kenya

On April 2, 2018 the Principal Secretary, Ministry of Health requested the NACC and NASCOP to work towards harmonizing the multiple unit costing work streams within HIV and AIDS programming in Kenya. Resultantly, a Health Sector Costing Technical Working Group (HSCTWG) was formed and domiciled at the NACC, with the mandate: ***to think through the harmonization of the unit cost.*** The scope of this mandate was further expanded beyond HIV related health services to include the UHC benefits package.

2.3 Costing of the 47 County AIDS Implementation Plans

The costing of the 47 County AIDS Implementation Plans will form a critical framework that is devolved and will address the community-led approaches in costing HIV programmes. The costing of CAIPs will also form a critical input to the costing studies that will help build the framework for the costing reference case.

2.4 Methodology of the Costing of the CAIPs in the Reference Case Framework

An Activity Based Costing (TDABC) approach will be used to capture costs for the various activities identified to address the 9 thematic areas in the County AIDS Implementation Plans (CAIPs). The activity entered approach that will follow the flow of individual activity through the services and measure all the inputs and assumptions required in the delivery of the KASF II through the CAIPs. The methodology will include a break-down from the thematic area, to the focus area, the strategies and activities. In the process, possible challenges and data use will be integrated.

3. Objective

The overall objective of the costing reference case is: to provide a framework for quality cost estimation of HIV programs and provide a living data repository for the studies including a comprehensive costing of the County AIDS Implementation Plans (CAIPs).

Special Notes

1. The Lump-Sum price is arrived at on the basis of inputs – including rates – provided by the Consultant. The Client agrees to pay the Consultant according to a schedule of payments linked to the delivery of certain outputs, usually reports. Lump-sum contracts have the simplicity of administration, the Client having only to be satisfied with the outputs without monitoring the staff inputs and should be used for large Assignments in for example Design; Engineering; Supervision and Management Services; Master plans; Economic and Feasibility studies; and Surveys.

2. The Contract includes four parts: Form of Contract, the General Conditions of Contract, the Special Conditions of Contract and the Appendices. The Client using this standard contract should not alter the General Conditions. Any adjustment to meet any specific project features should be made only in the Special Conditions.

6.4 Payments shall be made according to the following schedule:

Note: (a) This sample Clause should be specifically drafted for each Contract and the following installments are indicative only; (b) if the payment of foreign currency and of local currency does not follow the same schedule, add a separate schedule for payment in local currency; and (c) if applicable, detail further the nature of the report evidencing performance, as may be required, e.g., submission of study or specific phase of study, survey, drawings, draft bidding documents, etc., as listed in Appendix B, Reporting Requirements. In the example provided, the bank guarantee for the repayment is released when the payments have reached 50 percent of the lump-sum price, because it is assumed that at that point, the advance has been entirely set off against the performance of services.

- Twenty-five (25) percent of the lump-sum amount shall be paid upon submission of the draft final report.
- Twenty (20) percent of the lump-sum amount shall be paid upon approval of the final report.
- The bank guarantee shall be released when the total payments reach fifty (50) percent of the lump-sum amount.
